PROFESSIONAL SUMMARY

Frontend Developer specializing in React.js and Next.js, with professional experience building production web applications and contributing across the development lifecycle. Experienced in developing complex, data-driven interfaces, integrating REST APIs, translating designs and requirements into responsive applications, reviewing code, managing merges and deployments, and collaborating closely with backend developers, designers, project teams, and clients. Comfortable working with TypeScript and currently expanding into mobile application development with React Native.

PROFESSIONAL EXPERIENCE

ARABIA INTELLIGENCE — Frontend Developer

Beirut, Lebanon | February 2024 – Present

- Develop and maintain Medulink, a comprehensive back-office system with a wide range of business features and workflows.
- Build production-ready web applications and responsive user interfaces using Next.js, React, Tailwind CSS, and TypeScript.
- Design and implement complex forms, customer and subscription workflows, data-management interfaces, profile screens, and other business-critical features.
- Integrate and consume REST APIs to retrieve, update, and manage application data across multiple workflows.
- Review team code, participate in pull-request workflows, and help maintain code quality and consistency across the application.
- Manage merges and production deployments, contributing to the delivery and release process.
- Collaborate with backend developers and other team members to define requirements, solve implementation challenges, and deliver features.
- Participate in daily meetings and contribute to technical discussions, task prioritization, and project planning.
- Develop mobile applications using React Native as part of the team's expansion into mobile products.

ASTUDIO — Frontend Developer

Dubai, U.A.E. | March 2023 – August 2023

- Developed a CRM web application using Next.js, Tailwind CSS, and Context API.
- Built key features including timesheet management, dynamic profile pages, forms, tables, and data-driven interfaces.
- Integrated frontend functionality with backend APIs and collaborated with backend developers to ensure reliable data flow.
- Resolved bugs and improved usability and overall user experience across the application.

ITXI — Frontend Developer

Beirut, Lebanon | November 2023 – January 2024

- Worked as part of a development team to build and improve application features and user interfaces.
- Participated in daily team meetings to discuss progress, resolve challenges, and prioritize tasks.

SELECTED PROJECTS

OceanWavesUAE — Yacht Platform

Dubai, U.A.E. | 2023

- Built a responsive yacht-listing website using Next.js, Tailwind CSS, and Hygraph.
- Implemented yacht exploration and comparison experiences, fishing package details, and a WhatsApp-based booking flow.
- Handled deployment, SSL configuration, and performance optimization.

CheckoutForex — Forex Broker Comparison Platform

Dubai, U.A.E. | 2022

- Developed a dynamic Next.js platform using Tailwind CSS and Hygraph with a database of 200+ forex brokers.
- Implemented broker comparison, registration and login, reviews, ratings, an economic calendar, and financial news features.
- Built responsive interfaces focused on usability and accessible presentation of large amounts of financial information.

TECHNICAL SKILLS

Frontend	React.js, Next.js, JavaScript, TypeScript, HTML, CSS, Tailwind CSS
Mobile	React Native
State & Forms	Redux Toolkit, Context API, React Hook Form
APIs & Data	REST APIs, Axios, Hygraph
Tools	Git, GitHub, Vercel

EDUCATION

Bachelor of Science in Computer Science

Beirut Arab University, Lebanon | 2017 – 2019

Frontend Web Development — Re-Coded, Lebanon | July 2022 – November 2022

4.5-month immersive program with 300+ hours of curriculum and project-based learning. Technologies included HTML, CSS, JavaScript, and React.
